

# *Jewish-Palestinian Living Room Dialogue at 26*

Sunday, 08 July 2018 • San Mateo, California USA

Muslim, Jewish, and Christian participants of the San Mateo and the San Francisco Dialogues gathered at the home of the original 1992 meeting for a summer potluck meal and circle of engagement. The day included interested guests with roots in Africa, Asia, Europe, and the Middle East. Poignant and joyful moments were to recall personal experiences and insights about people and change, and to celebrate our movement outward to initiate and support frontiers of needed civil communication around Earth – listening, always listening – experiencing that “an enemy is one whose story we have not heard.”
