With Earth and Each Other

Music & Lyrics by Dan Bern

*As the sun comes up on a brand new day,
never been a day exactly like today.
And we've already seen a billion sunsets.
Not sure how this one's gonna be, can't say.
Sometimes, I know only this:
We are one family.
We are children of God.
Fruit on the tree of life.
Earth and each other.
With Earth and each other.*

*Why can't we remember this?
Treat her, treat him, like you'd be treated too.
Treat the earth like the treat your home.
In the universe, a tiny point of blue.
Sometimes, I know only this:
We are one family.
We are children of God.
Fruit on the tree of life.
Earth and each other.
With Earth and each other.*

*Look past anger.
Look past greed.
Look past blood, religion, creed.
Step by step we make our own history.
History. History. History.
We are one family.
We are children of God.
Fruit on the tree of life.
We are one family.
We are children of God.
Sisters and brothers together.
With Earth and each other.
With Earth and each other.*
