

*"If ever the world sees a time
when women shall come together purely and simply
for the benefit of mankind, it will be a power
such as the world has never known."* Matthew Arnold

The Time Is Now!

State Capitol Building, Sacramento, California, Wednesday, May 21, 1975

The Time Is Now!

"I represent the original inhabitants of this continent.

Hear a prophecy of my people: The Great Spirit will return. I fulfill the hopes of all the Indians and all peoples by recognizing the way of the "War of Light" over the "Sons of Darkness."

Hear the prophecy of my people: Go to the mountain-top of consciousness and learn to be "Warriors of The Rainbow", learn to war with the truth, with non-violence, and with the light. It is only by spreading love and well being to others that hate in this world can be changed to understanding and kindness, and the wars of violence and destruction shall end. I

hereby pass to you the commission of the "Warriors Of The Rainbow" and ask the Great Spirit to bless your undertaking to seal the covenant of the founders of this nation and to bring about a "new order of the ages."

Place your trust in the Great Spirit, your faith in truth and right to conquer over might.

I pronounce the time is now.

Let the races of mankind come forward.

Let the mothers of men now speak."

"IN this year, 1975, designated as International Women's Year, we step forward to accept the commission "Warriors Of The Rainbow." A new kind

of war. A war of the spirit.

We will stand for truth and for what is right. We will use non-violent methods. The time is now for all to recognize a higher order of will and law and the interdependence of the brotherhood of man. This is the basis of our common stand."

"AS a Warrior Of The Rainbow I speak for black women who are of good will.

The time is now to move forward beyond prejudice and discrimination.

I proclaim that we have overcome.

We claim equality, education, economic emancipation.

Once the white man of America brought us from our land as slaves. This action left future generations a legacy of shame. This legacy can be made right by change. But we cannot add another legacy of shame by leaving to future generations radioactive wastes that can never be made right. The time is now. I release this dove as a covenant for all black women of good will that in this war we will use truth and right and non-violent methods."

"AS a Warrior Of The Rainbow, I speak for women of the brown and red races who are of good will.

The time is now to speak out to say the land belongs to the people.

Greed for money must not control what is done with the land. If we keep selling the land for profits great sadness will overtake the future and famine will come to the people.

Use the land as the Great Spirit intended. Stop the building of roads and towers of stone upon the most fertile lands of the earth. We cannot ravage the red man's land with strip mining. We cannot exploit people to work on the land without respect and adequate pay.

All life depends on the earth, the water and the air for its existence.

Hear a prophecy of our people:

When the white-man's way of life forgets Mother Earth and her ways of giving food, all life will die. Nuclear wastes kill the land and water and fill the air with invisible death. The time is now.

I release this dove as a covenant for all the brown and red women of good will that in this war we will use truth and right and non-violent methods."

"AS a Warrior of The Rainbow,
I speak for women of the Asian races
who are of good will.

We have, as women, suffered silently the
tyranny of the rape and the kill of war. We have
suffered the injustices of the ruination of the land,
water and sky for purposes of material gain. What
has been done is not for the benefit of the people.
We call to all men, all leaders of governments
and nations.

Stop using up the resources of this planet
for killing.

Stop the lies and intrigue and playing with
people's lives.

You have brought the world to disaster.

You have brought the world to disaster in the name
of democracy, in the name of security, in the name
of righteousness.

Instead you have poisoned the land, ravished the
people, massacred the innocent children and
women, torn families apart and made killers out
of our sons. The Viet Nam war has been the
greatest inhumanity to man the world has ever
known. It must be the end of all wars.

We speak in the name of the yet unborn of the fu-
ture. We speak their accusations. The time is now.

I release this dove as a covenant for all Asian
women of good will that in this war we will use
truth and right and non-violent methods."

"AS a Warrior Of The Rainbow,
I speak for all white women who are of
good will.

There is confusion in high places on the
single basic issue of right and wrong, of what is
good and what is evil, what leads to life and what
brings death. We can no longer tolerate a war econ-
omy as a basis for life. War cannot be fought with
nuclear weapons without ending all life on
this planet.

We refuse to remain silent when we sit in comfort
in our living rooms and watch on television the
killing of innocent men, women and children, the
total defoliation and poisoning of land, the snatch-
ing of infants out of their mother's arms, all in the
name of wars of ideals, wars of justice.

We claim a part in the decisions that affect all
children's lives.

Wars have taught our sons to kill, our sensitive
youth to leave the place of their birth and to make
another land their home. We have left them alone
to speak out. We join them now to say the Viet
Nam war must be the last. If Israel and the Arabs
fight we are effected. Yet we continue to sell
weapons for money to both sides.

What for? Security?

Radioactive waste from nuclear weapons and a
nuclear power economy will remain in the en-
vironment to kill for 500,000 years.

This is a moral and spiritual decision.
It takes freedom of choices away from
future generations.

Yet we launch another atomic ship in the name of
power and strength and security. This is treason to
the human spirit and to human intelligence and to
human dignity. Why is the money of the land not
spent for education? Our children are the nation's
greatest value.

Why are the brains of the nation focused on death
and greed?

Why is the money not spent for jobs for blacks,
browns, reds, whites, Asians?

Why is the money not spent for parks, housing, jobs
that have purpose and meaning and enhance life?

We want a new life style that is simple and de-
centralized. Not based on greed.

We do not want vested interests and large corpo-
rations interlocked with government to run
our lives.

We do not want an industrial-military complex
running our nation.

We want the truth.

We do not want more affluence, more electric
gadgets, bigger automobiles, more energy. We
want simplicity and conservation.

We want a voice in bringing about these goals.

We the women shall work for the children and the
youth to "build the earth"—to make it a place of
peace and love—to bring hope to the future. The
time is now. I release this dove as a covenant for
all white women of good will that in this war we
will use truth and right and non-violent methods."

"THE time is now for us to realize
the creation belongs to the entire hu-
man race. Not to any one nation. Not to
any one race. Not to any one religion. We

will no longer tolerate war. War is now insane. We
will no longer tolerate the rape of the land for
private, selfish gains, We will not tolerate nuclear
weapons. Radioactive wastes last for geological ages
and kill. Humans have the responsibility for all
life. Mankind must decide.

If plants die, people die.

If animals die, people die.

If water is poisoned, people die.

If air is polluted, people die.

People are entitled to life. It is their birthright.

We will eliminate ignorance, greed and power for
private, selfish gain.

All the peoples of the world want life.

The time is now."

"T HE time is now for all
enlightened people of the world
to speak.

We can no longer have the heads of nations,
unenlightened minds, selfish motives, rulers of
people, presidents of large corporations and in-
dustries making decisions that are not for the well-
being of all the people.

We have just lost the Viet Nam war. We were
never told the truth.

We go on building atomic war ships and producing
three nuclear bombs a day—each three times more
powerful than the bomb detonated over
Hiroshima.

We have now in stockpiles ten tons of explosive
power for each man, woman and child in the entire
world. All of this is done in the name of security.
We have never been told the truth.

The people perish in slums without jobs, without
adequate education. Who is making these
decisions? Where is democracy?

We see tyranny within the land. The abuses by
elected officers of government, by selfish, self-
interested men. We have learned to distrust their
motives and their ability to do right for the people.
We have seen the blatant disregard by the leaders
of this nation of the moral and spiritual ideals upon
which this government was founded. We ask all
persons in government who are enlightened and of
good will to take their stand. They are the ones
we want in office and in leadership. We demand a
second American Revolution, a revolution of the
enlightened and the contemporary over the obsolete
and the ignorant, over the crass disregard for life,
for people, for natural resources, for land, for water,
for air and for generations to come.

Our youth have been crying out for adequate
human goals.

Youth have been calling out for mature leadership.
We commit ourselves to work with youth to bring
about the second American Revolution in which
once again the government will be of the people by
the people, and for the people.

This movement will give vision and hope. 'For
where there is no vision, the people perish.' Hear
now the quote from the great scientific genius of
the spirit, Father Teilhard de Chardin: 'The age of
nations is past. The task before us now, if we
would not perish, is to build the earth.'"

"H EAR a prophecy of my people:
The Brotherhood Of Man will come
to pass. The Great Spirit will return.

Let America, who harbors all the nations,
all the races, all the religions, lead the
way to a New Order Of The Ages.

The time is now."

America, The Beautiful

Oh beautiful for spacious skies
For amber waves of grain,
For purple mountain majesties
Above the fruited plain.

America, America,
God shed His grace on thee
And crown thy good with brotherhood
From sea to shining sea.

Mankind, Arise

Mankind arise, march to the new,
Time has decreed another age,
An age when we are one.

Open to see the rising sun,
To love the beauty of our earth,
To feel the longing of our souls
To join together once again.

Mankind arise, bring forth the hope,
Sing out our hymn of praise to God
To bless man, one and all.

Answer your call to destiny,
For now and for eternity,
Mankind arise, Mankind arise
For we are one.

Woman to Woman
