This practical evening is to offer modern tools of communication for your home, school, business, neighborhood, and global community.

Facilitators Libby and Len Traubman co-founded the 17-year-old Jewish-Palestinian Living Room Dialogue of San Mateo, California, featured on CNN, NPR, MSNBC, and Voice of America. They co-produced two films: *DIALOGUE AT WASHINGTON HIGH*, and *PEACEMAKERS: Palestinians & Jews Together at Camp*. In Berkeley they'll offer this face-to-face experience that has recently meant so much to diverse students, educators, and others including in Houston, Charlotte, and Cleveland, where the Traubmans were on the Design Team of the new National Peace Academy. **Mohammed Issa Abufayyad** from Gaza, Palestine, is a pre-medical student at San Francisco State University. From experiences in youth as a medical rescuer with his family's Fayyad Clinic Center during war, and having also crossed borders to discover the humanity of the "other," Mohammed has chosen a life of healing through medicine and sustained relationship building.
